On September 22, 1994, TDS Telecom, d/b/a Leslie County Telephone Company ("Leslie") filed a promotional tariff wherein it proposed to waive the non-recurring installation charges for existing and new customers for their second and subsequent residential lines added at the same location. Leslie proposed a promotional period from November 15, 1994 through December 31, 1994.

After review, the Commission finds that the tariff filing should be approved. The Commission will require Leslie to file at the end of the promotional period the amount of revenues lost from the waiver, the level of additional sales received during the promotion, and the expected annual revenues from these sales. In addition, at the end of one calendar year, Leslie should file the amount of revenues lost and the amount of additional revenues received from the promotional sales.

The Commission, having been sufficiently advised, HEREBY ORDERS that:

1. Leslie's promotional offering for second and subsequent residential lines added at one location is approved.

2. Leslie shall file by January 31, 1995 the amount of revenues lost, the level of additional sales received and the projected annual revenues from the promotion, and by January 31, 1996 the amount of revenues lost and the amount of additional revenues received from the promotional sales during the calendar year following the special promotion.
